

A message to our members -

These unprecedented times call for unprecedented measures. Most important, we want you to know we remain committed to serving our members through this period of heightened concern. This will include providing additional communications and guidance, sharing information about topics such as remote work technologies, practices and policies, government aid, disaster preparedness and other shared resources provided by members and government.

In relation to upcoming events, the Chamber has decided on the following actions:

- We are turning our March 19 Society of Professional Women event into a live virtual lunchtime event, featuring our speaker Robin Gerber from Los Angeles. During a time when in-person connection is being limited due to safety concerns, we are planning a productive and innovative experience that will include a networking component. Log-in information will be shared with registrants. [Registration remains open.](#) Stay tuned for more details.
- Our March 25 Members First event will be rescheduled.
- Our March 30 Network at Noon event will be rescheduled. Tickets that have been purchased will be transferred to the new date once it has been set.
- We will reschedule our Inspirational Breakfast, which had been set for April 1. Tickets that have been purchased will be transferred to the new date once it has been set.
- The Chamber has purchased a subscription to the Zoom virtual meeting platform, which we will be using for committee meetings, including the meeting of the Chamber's Board of Directors next week. The majority of the Chamber's work will continue and, in some cases will be expanded upon, through this period of time.
- We are adding emphasis to our social media assets, including LinkedIn, Facebook and Instagram. Our ability to gather and share information, through these and other communications platforms, will bring value to our members. Other events will be evaluated on a case-by-case basis. We know our members will want to get out and meet each other once the threat subsides and we look forward to serving our members in new ways.
